

National Arab American Association of Engineers & Architects

The Arab American Association of Engineers and Architects (AAAEA), a 501(c)(3) Organization is a non-profit, non-political, and non-religious professional organization.

AAAEA started in Chicago in the fall of 1996 and registered as a non-profit organization in 1997 in the State of Illinois. Since 1996 its membership has been growing steadily to include engineers, architects, educators, business owners / partners and students.

With the ambition, devotion, and leadership of our members, AAAEA was able to expand and create many sister organizations throughout the United States. The Grand National Conference was held in Chicago where the association was declared as a national organization on 11/11/11. Today, AAAEA exists in the following states: California, Connecticut, Florida, Illinois, Indiana, Maryland, Michigan, Minnesota, New Jersey, New York, Texas, Virginia, Wisconsin, and the District of Columbia; with some states having more than one chapter as in California, Florida, Illinois, and Texas.

Association of
Engineers & Architects**

جمعية المهندسين والمعماريين العرب الأمريكيين

Membership Benefits

- ◆ **Monthly Networking Meetings** – You are not alone! Dozens of professionals attend our collaborative events designed to network, learn, and grow alongside other professionals.
- ◆ **Members Only Discount** – Exclusive savings on all your local professional networking and professional development costs, lightening the load on your company and your wallet.
- ◆ **Job Opportunities** – Don't be left out! Exclusive job opportunities in the USA and the Middle East are sent regularly to all of our members providing them with new career opportunities.
- ◆ **Monthly AlMuhandes Newsletter** – Are you wasting your valuable time searching for information? Our monthly AlMuhandes newsletter is full of information about the community and the professional events/opportunities.
- ◆ **Continuing Education Programs** – Are you paying too much to earn PDH certificates? Are you missing out on essential knowledge for professionals? Gain confidence in your abilities by keeping yourself knowledgeable and relevant as a professional while also getting members-only free or reduced cost PDH certificates.
- ◆ **Scholarship Program** – Do you need help to continue your college education? Our scholarship program is growing and we have so far awarded over **\$165,000** of scholarship money to students all over the United States.

Mission Statement

AAAEA is a professional Arab American association dedicated to help, strengthen, empower and inspire its members for excellence. AAAEA promotes and advocates the Arab American Engineers, Architects and Computer Science professionals in North America, by providing career and educational enhancement programs, technical exchange, fellowship, and community service. AAAEA is a non-profit, non-political and non-religious Professional Association. Membership is open to corporations, academic, professional institutions, and qualified individuals.

AAAEA Goals

1. To further the public welfare whenever engineering knowledge is involved and to act upon matters which are the concerns of the engineering profession.
2. Promote technical and social networking among the members.
3. Conduct professional development review courses and technical seminars to inform members of the latest technologies and regulations affecting the engineering profession.
4. Enhance the credibility of Arab American professionals in North America.
5. Establish scholarship programs to encourage qualified students to pursue higher education in science and engineering, architectural, and information technology fields.
6. Cooperate with other professional organizations to expand professional knowledge and increase exposure of AAAEA members.
7. Serve the professional interest of the general membership and strive to promote professional consciousness and fellowship through collective interdisciplinary activities, in accordance with recognized and established engineering ethics, and within existing applicable regulations and laws.
