AAAAEA DINNER SEMINAR

Guide to Shear Reinforcement for Reinforced Concrete Slabs & Seismic Provisions for Punching Shear

By

Mustafa Mahamid, PhD, SE, PE, LEED AP

GRAEF-USA, Inc.

This presentation will give an overview of the latest provisions for slab shear reinforcement and punching shear seismic design requirements according to ACI 318-08.

Bio: Mustafa Mahamid is a structural engineer with GRAEF-USA, Inc. and an Adjunct Professor at the University of Illinois at Chicago. Dr. Mahamid is a registered professional engineer in the state of Wisconsin, Michigan, and California, and a licensed structural engineer in the state of Illinois. He is a member of several technical committees sponsored by ASCE/SEI and ACI.

His current experience at GRAEF-USA, inc. includes building design in different parts of the US and his previous experience at Skidmore Owings & Merrill, LLP includes building design in Europe, China, and the Middle East.

Dr. Mahamid has been a member of the AAAEA since 2000, served as the national outreach committee chair and served as the national steering committee chair. Currently he is a member of the AAAEA Board of Trustees and a member of the national steering committee.
